

Projects

- <https://dj-devcamp-portfolio.herokuapp.com/>
Portfolio built with **Ruby on Rails** showing my online resume with a **blog** that uses **Action cable** for commenting, **Markdown** for the body, and a topic filtering to show blogs by topic. **Portfolio** that show cases my other projects that I can rearrange with a **drag and drop** functionality.
- <https://dj-webclones.herokuapp.com/>
Clones of popular websites showing my front end development skills. All the different clones have their own unique styles.
- **Overtime App**
The Overtime app manages employees and documents employees time that they have spent working overtime.
- **Angular App**
A freelancer app that manages documents and creates proposals that auto calculates pricing and populates the document with content. Then it sends it in an email to the client.

Education

Bottega (Lehi, UT)

- Accelerated learning program that I was able to learn my various programming skills.

Utah Valley University (Orem, UT) 2014 - Present

- Major: INFS-Business Intelligence Systems.
- GPA: 3.53
- The Society for Collegiate Leadership & Achievement.
- Phi Theta Kappa Honor Society.

Experience

Macey's, Lowes, Lehi, UT

Nov. 2014 – May 2017

- One of the interesting things is that I worked both jobs while attending college so that I could stay out of debt. It was hard but very rewarding experience.

Remedy Informatics, Sandy, Utah Jr. Computer Technician

June 2012 - Sept 2012

- Administered network wiring, data communication testing, and certification.
- Tested and repaired computer hardware and software.
- Provided desktop software installation and support.

About Me

I am the oldest of six kids and I love my family. My dad works in the IT field and has spent a lot of time helping me cultivate my love of technology. The more I learn about programming and database management the more I love it and feel I have found my passion.
